

## The Last Word in First Aid

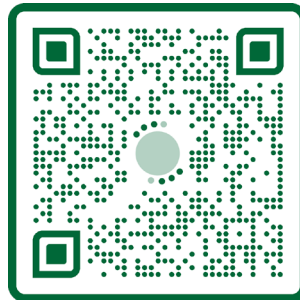

**FloraSeptic®** offers safe and non-irritating antimicrobial wound protection that has broad-spectrum antimicrobial properties. Its unique, patented formulation resolves pathogenic flora and helps to decolonize the wound. It is registered with the FDA as an over-the-counter (OTC) human drug.

**FloraSeptic®** facilitates removal of debris, excess exudate and necrotic tissue fragments. Each of the following ***essential components*** are critical for ***successful wound recovery***:

- Reduces infection
- Promotes a moist wound environment
- Helps maintain desirable wound pH

In antimicrobial tests, **FloraSeptic®** showed efficacy against standard and highly virulent strains of antibiotic-resistant bacteria such as:

- Methicillin Resistant *Staphylococcus Aureus* (MRSA)
- Vancomycin Resistant *Enterococcus* (VRE)
- Group B *Streptococcus* (B-Strep)
- *E. Coli*.
